

In the Claims:

1-12. (Canceled)

13. (Currently Amended) ~~The cigarette of Claim 1 further comprising~~ A cigarette comprising:

a tobacco rod;

a filter element connected to the tobacco rod, said filter element incorporating an outer element of filter material and an inner element of filter material and said filter element having an end proximal to the tobacco rod and an end distal from the tobacco rod;

a cavity defined by said inner element of filter material, and extending from the proximal end of the filter element;

at least one breakable capsule disposed in the cavity, said capsule having contents; and

tipping material connecting the tobacco rod and the filter element, wherein said tipping material includes a visual indicator of the position of the capsule within the filter element,

wherein said cavity includes a first region for receipt of the at least one breakable capsule and a second region for receipt of capsule contents following rupture of the capsule.

14-32. (Canceled).

33. (Previously Presented) A cigarette comprising:

- a tobacco rod;
- a first filter segment connected to the tobacco rod, said first filter segment having an end proximal to the tobacco rod and an end distal from the tobacco rod;
- a cavity extending into the first filter segment from the end of the first filter segment distal from the tobacco rod;
- a second filter segment positioned at the end of the first filter segment distal from the tobacco rod;
- at least one breakable capsule disposed in the cavity, wherein said capsule has a diameter of at least about 3 mm; and further comprising
- tipping material connecting the tobacco rod and the filter element, wherein said tipping material includes a visual indicator of the position of the capsule within the filter element.

34-60. (Canceled).
